Kansas Rural Health Options Project
K-State Research and Extension

Health Care Trends

Impacting Rural Communities

- Change in the structure of health care systems driven by health care costs
- Difficult for some to get health coverage
- Insurance premiums have increased
- Rural providers reimbursed less than urban counterparts
- Loss of local control

Research Study Objectives

- Promote a viable, sustainable health care system in our county
 - Health care and economic development
 - Identify the economic potential of health care
 - Identify trends and changes in local health care needs
 - Identify the economic impact of health care on the county economy

Health Care Spending

- 1990, avg. person spent \$2,074 on health care (2006 \$)
- 2006, avg. person spent \$3,267 on health care
- 1990, Health care was 12% of GDP
- 2006, Health care was 16% of GDP
- 2016, Health care projected at 19.6% of GDP

Health Care in the Community

- Many people don't realize the importance of health care to the local economy
- Rural communities should learn about their health care needs and take stock of their health care system
- Rural communities must act to avoid loss of health care jobs and local services

Health Care and the Rural Development Connection

Why is health care important for community economic development?

- Attract and retain business and industry
- Attract and retain retirees
- Create jobs in the local economy

Health Services in the Local Economy

Health Services in the Local Economy

Figure 7. Total Income by Sector (2007)

Planning for Future Health Care Needs

- County demographics and projections
- Sources of local income
- Health indicators
 - Medicare, Medicaid
 - Indicators of family and financial stress
 - Indicators of maternal and children's health

Health Sector Impact

- The spending by health care businesses and the income paid to employees “ripples” throughout the county economy
- Each job created in the health sector creates additional employment in the county
- Each dollar of earned income in the health sector creates additional income in the county

Total Health Care Impact

Health Sectors	Direct Employment	Economic Multiplier	Total Impact
Health and Personal Care Stores	54	1.44	78
Veterinary Services	19	1.41	27
Home Health Care Services	13	1.40	18
Doctors and Dentists	64	1.46	94
Other Ambulatory Health Care	135	1.59	214
Hospitals	55	1.49	82
Nursing and Residential Care Facilities	269	1.42	381
Total	609		894

Health Care Impact

Health Sectors	Direct Income	Economic Multiplier	Total Impact
Health and Personal Care Stores	\$1,356	1.43	\$1,934
Veterinary Services	\$428	1.44	\$617
Home Health Care Services	\$476	1.26	\$599
Doctors and Dentists	\$3,596	1.20	\$4,315
Other Ambulatory Health Care	\$6,361	1.33	\$8,453
Hospitals	\$2,909	1.23	\$3,571
Nursing/Residential Care Facilities	\$6,682	1.39	\$9,307
Total	\$21,808		\$28,796

Health Care Impact

Health Sectors	Total Impact	Retail Sales
Health and Personal Care Stores	\$1,934	\$379
Veterinary Services	\$617	\$121
Home Health Care Services	\$599	\$118
Doctors and Dentists	\$4,315	\$847
Other Ambulatory Health Care	\$8,453	\$1,659
Hospitals	\$3,571	\$701
Nursing/Residential Care Facilities	\$9,307	\$1,826
Total	\$28,796	\$5,650

Summary and Conclusions

- Trends and indicators show health care's economic importance
- Health services among the fastest growing sectors – demographic trends suggest growth will continue
- Attracting/retaining businesses & retirees depends on adequate health care services
- Sustainable health care system essential for local health and economic opportunity

Summary and Conclusions

- Economics of health care rapidly changing
- Maintaining a sustainable local health care system is a community-wide challenge
- Strategic health care planning must be ongoing and inclusive
