

Hoisington Rural Health Works

KANSAS RURAL
HEALTH WORKS

Communities Building Affordable & Sustainable Healthcare Systems

Education Data

Introduction

Kansas Rural Health Works (KRHW) is dedicated to helping rural communities build affordable and sustainable local health care systems. Health care is important to seniors, young families and companies. But rural health care systems are facing many challenges: hospitals are closing; services have been cut; doctors won't come to the area or they don't stay; Medicare and Medicaid payments are too low. Rural residents can revitalize their local health care system. KRHW provides the tools. Local visionary leadership puts these tools to work. KRHW helps communities keep health care dollars at home. Sponsored by the Kansas Rural Health Options Project with funding from the Office of Rural Health Policy, Health Resources and Services Administration.

Education Data Summary

Following are a variety of data and statistics about the K-12 school system in Barton County that may have implications related to local health care needs. The data in this case reflects information reported by the school districts located in Barton County.

- Total student enrollment in Barton County K-12 school districts has steadily declined since the mid-1990s.
- As the student population has declined, the student-to-teacher ratio also has declined.
- The trend in the student dropout rate has generally been declining in Barton County over the past decade.
- The trend in student-on-student violence has been decreasing over time. Student-on-faculty violence has been trending up recently.

Kansas Department of Education, 2009

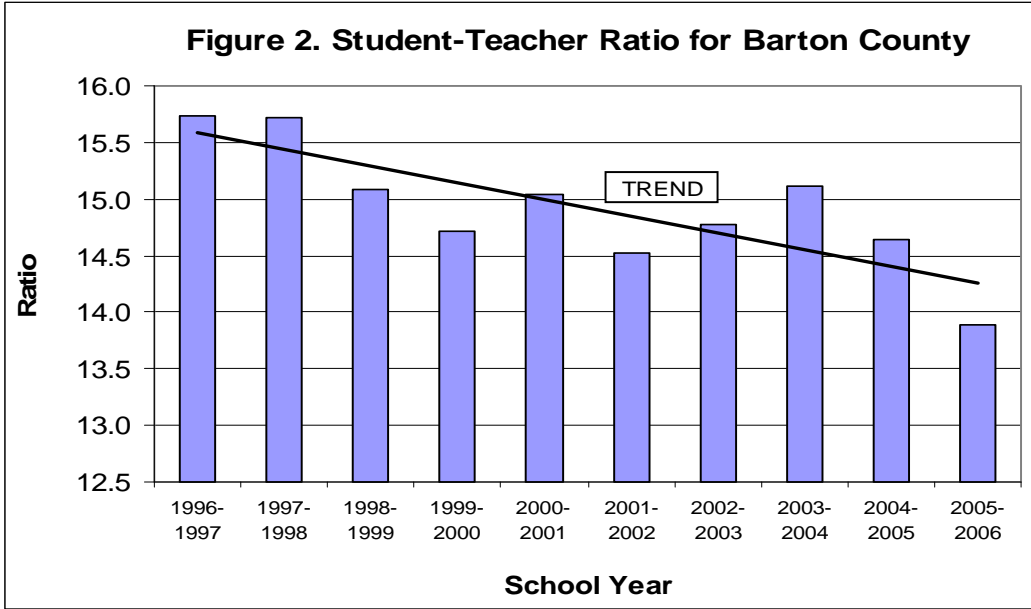

Total student enrollment in Barton County K-12 school districts has steadily declined since the mid-1990s. Enrollment was about 4,520 in the 2009-10 school year, down from 5,580 in 1996-97.

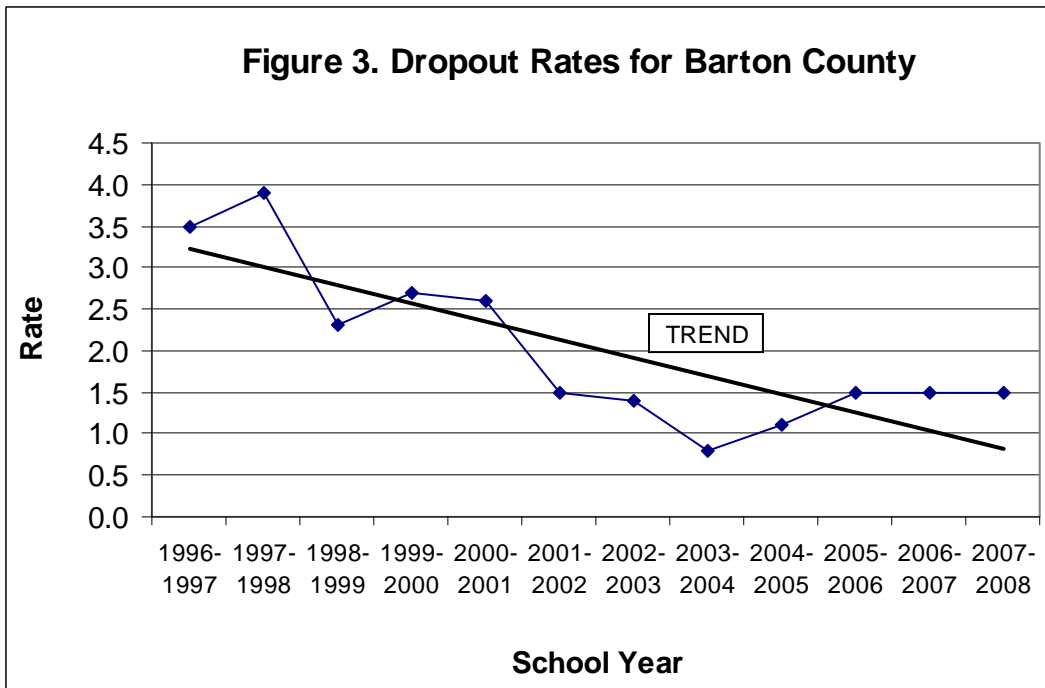

Kansas Department of Education (2009)

As the student population has declined, the student-to-teacher ratio also has declined. This generally means that as the school-age population has declined, the district has retained staffing. The ratio of about 14 students per teacher permits fairly close attention for each of the students.

Kansas Department of Education (2009)

The trend in the student dropout rate has generally been declining in Barton County over the past decade. This may be due, in part, to the declining enrollment.

Hoisington Rural Health Works

Violence in the school is extremely disruptive to learning. The trend in student-on-student violence has been decreasing over time. Student-on-faculty violence has been trending up recently.
